

Pull up my relativity review slides in a separate browser window, (control click should let you do that?) http://www.colorado.edu/physics/phys3320/phys3320_fa13/concept_tests/Relativity_review.pdf and then enter the answer you would choose for the concept test in those slides labeled CT: SR23

- A
- B
- C
- D

Please briefly explain your reasoning for the previous question.

As in the previous question, here I'm interested in your answer to the question labeled

CT: SR25

- A
- B

The times should be the same!
Something else/help!

Please briefly explain your reasoning for the previous question.

As in the previous question, here I'm interested in your answer to the question labeled

CT: SR34 (the very last one in the file)

- A
- B
- C

Something else/help!

Please briefly explain your reasoning for the previous question.
